### BART Service Delay, Contra Costa County

- On 03/16/16 at 1735 hours, the California State Warning Center (CSWC) received a report from the State Threat Assessment Center (STAC) advising that an electrical surge caused damage to 50 BART train cars on the tracks between Pittsburg and Concord in Contra Costa County. It could be months before a full fleet of trains is up and running
- [BART still has](#) a complete shutdown of service remaining between the North Concord and Bay Point stations. [BART officials advised that riders should be prepared to continue taking a bus bridge between the Pittsburg-Bay Point and Concord stations at least through Monday morning](#)
- BART has issued an Advisory on its website, stating that a 10-minute delay can be expected on the Pittsburg/Bay Point Line in the Pittsburg / Bay Point and SFO directions. Riders will still be able to board a BART train at the North Concord Station if traveling towards Oakland and San Francisco.
- A bus bridge has been established for riders traveling between the Pittsburg/Bay Point and North Concord-Martinez stations. [Concord BART station has 14 buses that will bridge service while BART works on equipment problems between Pittsburg and Concord.](#)
- BART isolated the problem to a portion of track along Highway 4, just east of the Willow Pass exit on the upslope entering the Pittsburg Hills. When the cars passed over this stretch of track, instead of delivering 1,000 volts of electricity, for an unknown reason the third rail was producing as much as 2,000 volts, according to a senior BART official. [The track troubles do not pose any safety concerns for passengers.](#)
- [On Friday, BART reports that they were able to muster only 516 cars for service, 63 less than its goal of 579 trains to offer regular service for growing ridership](#)
- [Service on other lines in the system will also be affected because there will be fewer cars in service. BART urges passengers to check the their website before going to the impacted train stations at \[www.bart.gov/alerts\]\(http://www.bart.gov/alerts\)](#)
- The Cal OES Coastal Region and CSWC are monitoring the situation.

# SITUATION SUMMARY

## HWY 3 Roadway Damage, Trinity County

- On 3/15/2016 Trinity County Proclaimed a local emergency and activated their EOC to Level 1 due to a washout of 1000' of Highway 3.
- A detour is available between Weaverville and Trinity Center using East Side/Trinity Mountain Road; but trucks and RVs are not allowed due to tight curves. Large vehicles will need to access Trinity Center via Highway 3 from the North.
- Highway 3 over Scotts Pass is open, residents can leave the Coffee Creek and Trinity Center areas via Highway 3 to Yreka for supplies. Currently, the only route to take Coffee Creek and Trinity Center residents in 2 wheel drives to Weaverville is a 140 mile detour north on Highway 3 to Yreka, south on I-5 into Redding, and west on Highway 299.
- Highway 3 is expected to remain closed at the slide until Memorial Day weekend.
- Scotts Mountain Pass and East Side Trinity Mountain Road will be plowed starting tomorrow and throughout the storm.
- There are no requests for assistance at this time as all needs are being met. Caltrans, Trinity, Shasta Counties and contractors are working to alleviate transportation issues.
- National Weather Service are providing spot weather reports. More rain is predicted this weekend.

## **Health and Medical**

- Basic Life Support EMS is available from the local Fire Department.
- A four wheel drive ambulance, which could meet an ALS ambulance if need be, is at the Slate Creek detour.
- Air Ambulances are available in good weather.

## **Missions**

- **2016-IREOC-21960**, Transportation EF-1. One snow blower to clear Trinity Mountain Road from Hwy 299 in Shasta County to Hwy 3 in Trinity County. Agency tasked: Caltrans. **Mission closed.**

## Verizon Wireless Service Outage, Southern California

Verizon Wireless is reporting service outages in 10 counties.

- This affects wireless service only, not land line service
- The PSAPs 911 network was not affected
- The concern is the Verizon Wireless subscribers can not call 9-1-1
- The outages started around 1200 hours.
- Most subscribers cannot call out, some can receive calls.
- Text and data services are not affected
- CA 9-1-1 Branch is monitoring the situation
- Service restored at 1738 hours

# **SITUATION SUMMARY**

## **Baker to Vegas Cup Relay, San Bernardino County**

- Cal OES Auxiliary Communications Service (ACS) deployed in support of the Baker to Vegas Challenge Cup Race where Cal OES ACS will be assisting San Bernardino County by providing OASIS and Communications at two locations in support of the Medical Base operations.
- OASIS will link the Doctors and EMS providers to the base hospital located in the Inland Empire.

## **Cal OES Mission Tasking**

- **2016-SREOC-21067:** Cal OES communications support scheduled for March 18-20, 2016.

## **Officials to test tsunami warning system in central and southern Calif. on March 23 during Tsunami Preparedness Week**

- NOAA and the California Office of Emergency Services (Cal OES) plan to conduct a test of the tsunami warning communications system on Wednesday, March 23 at approximately 1015 hours PDT in coastal areas of central and southern California.
- NOAA's National Weather Service Offices in Monterey, Oxnard and San Diego will broadcast the "Required Monthly Test." The test will also be broadcast on NOAA Weather Radio All Hazards, local television and radio stations.
- Some television systems are programmed to scroll a standard emergency alert text message and in some cases, the message may not contain the word "TEST." An audio message will say that the message is only a test, but if the volume is turned down or otherwise unheard, viewers may not realize the message is a test.
- To avoid confusion with an actual alert the test will be canceled if there is excessive seismic activity 24 hours prior to the test. People monitoring the test in coastal areas who do not receive it are asked to inform their local National Weather Service office.
- The test is a cooperative effort between NOAA, Cal OES, California Broadcasters Association, and local emergency management officials in coastal California.

## **Weather of Concern**

### **Northern California**

- There is currently no weather of concern for Northern California
- Wet weather expected to return for Sunday through Tuesday. Mostly light to moderate rain in the Valley expected with snow in the Sierra and Lassen NP areas.

### **Southern California**

- There is currently no weather of concern for Southern California

## **Cal EOC Incident – 2014 Drought**

SOC / Inland REOC remains activated in support of 2014 Drought.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A weak cold front will dissipate near the coast today. The weather becomes significantly more active beginning early Sunday when a warm front will be quickly followed by a cold front. Another stronger cold front will push inland on Monday. An upper low will follow Monday night and Tuesday to continue the unsettled weather. Upper ridging will build Wednesday but a weak system to the north may clip our area on Thursday. Ridging should rebuild into next weekend.

#### **Eureka Weather:**

A weak front will push into the region tonight and bring a chance of light rain by Saturday morning. A stronger front will arrive Sunday morning and generate greater amounts of rain as well as gusty winds. Cool and unsettled weather conditions with periods of rain will continue into the early portion of next week.

#### **Reno Weather:**

High pressure over the Sierra and western Nevada will bring dry weather, generally light winds and well above average temperatures today. Cooler temperatures with gusty winds and the next chance for precipitation returns Sunday into Tuesday as low pressure slowly approaches Northern California and Nevada.

#### **San Francisco Weather:**

A cooling trend will continue into Saturday as a deep marine layer and onshore flow persist. Rain chances will develop by Sunday as an upper level trough approaches the coast. Rain on Sunday will mostly be confined to the Northern half of the forecast area. More widespread rain is forecast for Monday with showers lingering into Tuesday. Dry weather conditions and warmer temperatures are then expected for the latter half of next week.

#### **Sacramento Weather:**

Dry and warm today, outside of a few Northern mountain showers. Wet weather returns for Sunday through Tuesday with rain, snow, and breezy winds.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

A ridge of high pressure will continue to build across the region through Saturday resulting in mostly clear skies and above normal temperatures for the Central California interior. A pacific storm system will cool temperatures down to near normal early next week and bring a chance of precipitation along with increased winds.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Increasing onshore flow ahead of a trough of low pressure will bring a cooling trend through early next week, along with persistent night and morning low clouds and fog for the coast and valleys. A cool and cloudy weather pattern will develop between Sunday and Tuesday as a trough of low pressure over the central Pacific Ocean moves over the region. Showers are possible over the area, especially between Monday and Tuesday.

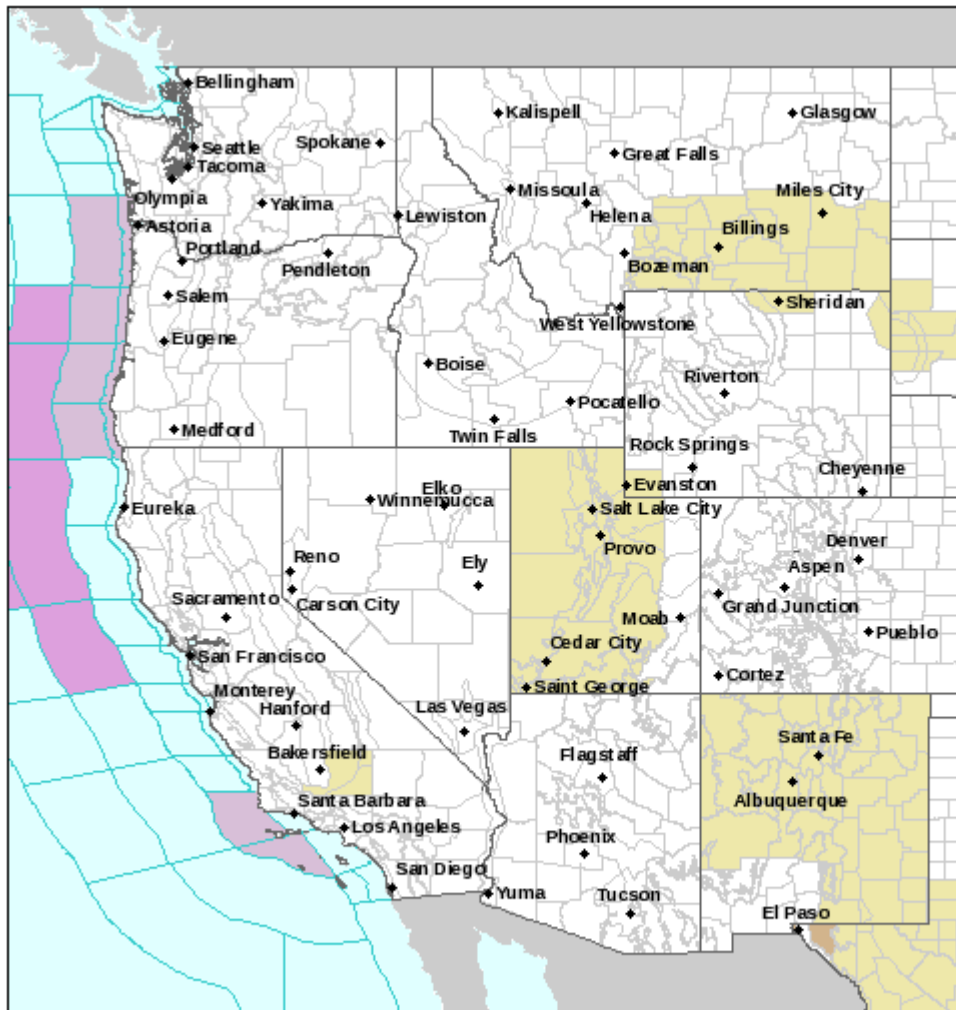

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure aloft will continue inland high temperatures around 10 degrees above average through the weekend. The marine layer will keep coastal high temperatures near average with areas of night and morning low clouds and fog. For Monday through Wednesday a trough of low pressure moving inland through the western states and the great basin will bring stronger onshore flow with strong gusty west winds in the mountains and deserts cooling with inland high temperatures around 5 degrees below average for Tuesday and Wednesday and a deeper marine layer. Warmer and dry for Thursday and Friday, with high pressure aloft and weak offshore flow.

#### **Southeast California Weather:**

High pressure over the desert southwest will result in clear skies and abnormally warm weather through the weekend. Daytime highs will exceed 90 degrees at many lower desert locations through early next week. Noticeably cooler temperatures and an increase in clouds and winds will impact the region by the middle of next week as a cold Pacific low pressure system moves inland.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

### **Local Emergency Proclamations:**

**A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

# California Specialized Training Institute

## CSTI Scheduled Training

## CSTI on the web

**Emergency Planning (G235):** This course focuses on emergency operation plans, the format and process to develop plans and evaluate the plan's effectiveness. Content includes the Comprehensive Planning Guide (CPG 101) and THIRA (CPG 201)

In this course, participants will learn the tools and techniques to develop or enhance an all-hazard emergency operations plan (EOP).

The following key topics are discussed:

- The Planning Process
- Format and Function
- Threat, Hazard Identification Risk Analysis (THIRA)
- Comprehensive Planning Guide (CPG 101)
- Planning Issues and Challenges
- Training and Exercises
- Practical Activity to Develop and EOP Outline
